## Mission Statement

The mission of the  
Osteopathic Founders Foundation  
is to support osteopathic medical  
education, to enhance the public's  
understanding of osteopathic  
medicine, and to improve the health  
of the community through  
projects consistent with  
the osteopathic philosophy.

## "Unforgettable" Winterset Kickoff Party

Winterset's 24th season launched this month with a kick-off party at the home of Drs. Patti (Shaw) and Brian Chalkin, 2011 Chairmen.

Committee members and past patrons gathered to see Phil Long, event producer, unveil the 2011

logo and provide a "sneak peek" of the evening he has planned for our guests. Promising "deco charm" and elegant tones of gold and silver, Phil assures us an "Unforgettable" event.

Many thanks to our physicians who recommended Tulsa area non-profit organizations to receive Winterset grants. Representatives of **Emergency Infant Services** and **Meals on Wheels of Metro Tulsa** were introduced by Drs. Shaw and Chalkin as the beneficiaries of Winterset 2011.

The mission of Emergency Infant Services is to meet the basic human needs of infants and

(Continued inside)

(Continued from front page)

children whose families are in crisis. With this Winterset grant, EIS will continue to provide comprehensive and immediate assistance with food, formula, clothing and other necessities to young children. In 2009, the agency helped over 12,000 children whose families were in short term need, an increase of nearly 40% from 2008. Infants and children at risk of hunger cannot endure a waiting period and our community cannot afford the consequences of sustained hunger on children.

Meals on Wheels of Metro Tulsa is the largest home-delivered meals program in our community. Through their mission of providing nutritional and personal contact support to the home-bound elderly and disabled, some of Tulsa's most vulnerable citizens are able to maintain their health, dignity, and independence. This Winterset grant will provide funding to support Meals on Wheels services to over 1,000 home-bound clients weekly. The agency coordinates the services of over 2,000 volunteers who travel an unreimbursed 180,000 miles annually to provide this essential service.

Winterset 2011 is bound to be another sell-out event, so make your pledge now to assure you and your friends have seats for the best party in town. For more information, go to [www.osteopathicfounders.org](http://www.osteopathicfounders.org) and follow the link to Winterset.

## New Scholarship Program

Thank you to the many generous donors to the Osteopathic Legacy Scholarship Campaign which ended October 31, 2010. As you know, the Foundation's original pledge was to match the first \$25,000 of contributions to the campaign. The good news is that we quickly exceeded that original goal. The Board of Directors took action at its October meeting to approve a recommendation to increase that pledge to match up to the first **\$50,000** of pledges and contributions received by October 31.

But there's more good news! The OSU Foundation announced that the match pledged from the Pickens' Legacy Fund has been increased to 2:1 for outright gifts. It's our plan to monetize the pledges received by the Osteopathic Founders Foundation and make an outright gift to the OSU Foundation in order to maximize the available Pickens' match. So, here's the math. Your \$1 contribution to OFF became \$2. OFF's \$2 contribution to the OSU Foundation becomes \$6.

THANK YOU for the creation of a **\$296,260.92** Osteopathic Legacy Endowed Scholarship Fund!!

## Outstanding Physician Award

In January, a very elite group of physicians will meet. This committee is comprised of the past five recipients of the Foundation's annual Outstanding Physician Award. They'll undertake the challenging assignment of selecting one of their peers to become the 2011 honoree.

You're invited to recommend an osteopathic physician who has practiced at least 10 years in northeast Oklahoma to be considered for this honor. Selection is based on extraordinary service to patients, to the education of young osteopathic students and physicians, to the community, and to our profession.

To recommend a colleague whom you believe should join this distinguished list of honorees please visit [www.osteopathicfounders.org](http://www.osteopathicfounders.org) and click on "Physicians," then select "Outstanding Physician Nominations." Or, just send us an email with your suggestion: email [djarvi@osteopathicfounders.org](mailto:djarvi@osteopathicfounders.org). The deadline for recommendations is December 31, 2010 and the honoree will be announced at Winterset 2011 on February 26. Make your reservations now so you don't miss the surprise!

## Time for Change

Nearly fifteen years after the sale of Tulsa Regional Medical Center and the subsequent adoption of the restated by-laws of the Osteopathic Founders Foundation, the Board of Directors has completed a thorough review and proposed revision of those by-laws for consideration of the membership. Enclosed in this newsletter are the proposed amendments as required under Article IX of the current document.

In February, 2010 the proposed amendments were presented to the Board of Directors. As required by Section 9.2, the proposed amendments were considered at the next meeting of the Board subsequent to the meeting at which the proposed amendments were presented. The proposed

amendments received an affirmative vote of a majority of all the Directors at that meeting which allows us to mail to you, the members of the corporation, these proposed amendments for your review and approval on a ballot which will be mailed to you in the next week. We would appreciate your prompt response before December 31, 2010 to the question and also your vote on the slate of candidates for election to the Board of Directors for terms beginning in 2011. We **need** your vote!

If you would like to discuss any of the proposed amendments, please feel free to contact the Foundation office for additional information.

## Kudos to the Author

Congratulations to our long time friend and former member of the Osteopathic Founders Foundation's Board of Directors, Tom Campbell, on the publication of his new novel: *Missing and Alive on the Emerald Coast*, an adventure story based in and around Destin and Fort Walton Beach, Florida. This is an area that's been a favorite vacation destination for Tom and his wife Charlotte, and those who are familiar with the beaches of the Florida panhandle will recognize many of the locations and businesses.

The story is about Steve Bronson, an accountant who fakes his drowning in an Oklahoma river and takes a new identity as he moves to the Emerald Coast. Steve's wife and an insurance investigator are convinced he is not dead and begin a search to find him. Steve becomes a hero of sorts before the story is complete.

*Missing and Alive* will soon be available in bookstores or by contacting Tom at 5117 East 21st Place, Tulsa, OK 74114. The price of the book is \$12.00.

Thomas Campbell, Ed.D. has just released his new novel.
